Thus begins the greatest real-time strategy epic ever conceived. Journey across parsecs of space to discover the origins of your people. You are at the helm of a vast armada of space vessels, any of which can be deployed to assist you in accomplishing a series of distinct missions that will allow you to penetrate the sidereal obscurity and discover the truth.

Manage resources, develop new technologies and wage combat in a real-time strategy environment that is, for the first time ever, entirely in 3D. Real time strategy just got a lot more real.

# Edgar Torronteras' EXTREME BIKER

WHAT'S YOUR DEFINITION OF 'EXTREME'?

Welcome to the remote French village of Rennes-le-Château. Gabriel and Grace arrive in this village in pursuit of a kidnapped child, but a far more terrifying story begins to unfold. Whispers of a sacred bloodline, vampires and a boundless treasure set the shadow hunter and his companion on an inescapable path to solve a millennia-old mystery.

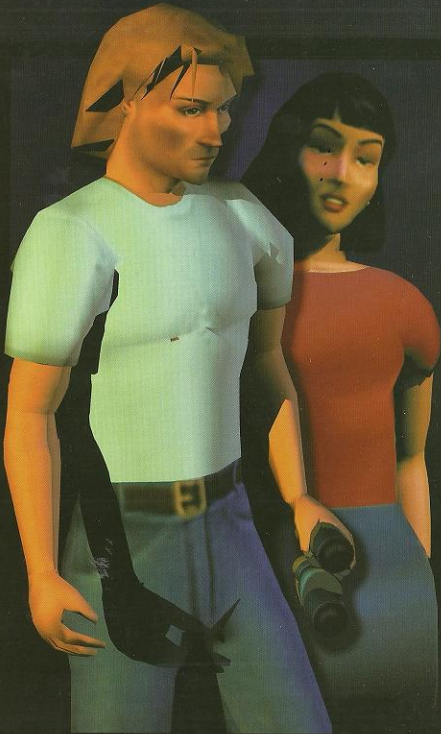

Explore Rennes-le-Château and the enigmas housed there within. Question suspects, solve intricate puzzles and challenge historical beliefs as you peel back the layers of this real-life mystery.

Play as both Gabriel Knight and Grace Nakimura as you learn more about what is hidden in the hills of France. Beware your life, your faith and your soul. For once the truth is found, there is no erasing it.

GORDON FREEMAN ISN'T THE ONLY ONE  
HAVING A BAD DAY AT BLACK MESA

SIERRA™

Remember the redoubtable soldiers in Half-Life?

Now you are one of them. And although you were originally sent into Black Mesa to silence Freeman in the facility, you now find yourself stranded - battling a hostile alien race known only as Race X and a variety of other foes in an effort to save your own life.

But as a military specialist, you are not unarmed. You'll gather a custom arsenal of new military firearms, experimental weapons and deadly alien devices. And, as you explore further areas of Black Mesa, you will encounter a new variety of human characters to interact with - on both friendly and unfriendly terms.

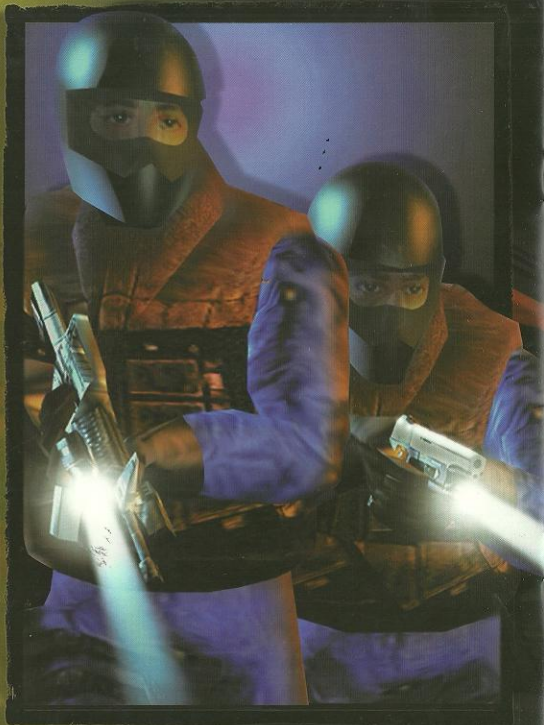

Command a five-man team in SWAT 3: Close Quarters Battle in Los Angeles, 2005. Prepare to take on more than 100 of the most vicious terrorists and criminals in the most realistic tactical first-person combat simulation ever created.

With a cutting edge armoury at your disposal, use real-life SWAT tactics throughout a detailed 3D landscape. You'll face conflict everywhere, from the air traffic control tower at LAX and the landmark Chinese Theater to the lush mansions of Brentwood and the extravagance of the Bel Aire Hotel.

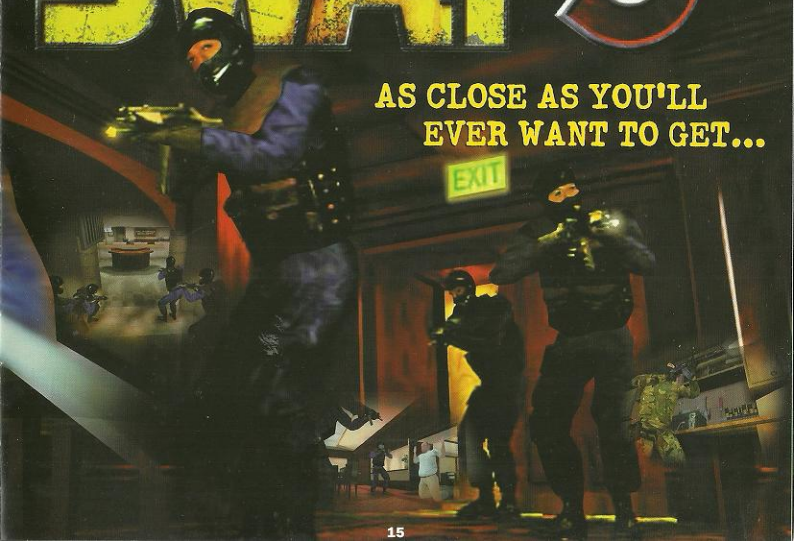

Combining intense character AI with real SWAT strategy, SWAT 3 delivers the most immersive tactical combat experience ever found without a badge.
