KIDS TO ADULTS

AGES 6+

Dear *SierraOriginals* Customer,

You hold in your hands a part of computer gaming history. All these titles have the original storyline and technological innovations that have helped define and create the PC-Gaming industry as it appears today. Consider these titles as pictures in a scrapbook - a snapshot of history that has helped to evolve the computer gaming industry. All of the *SierraOriginals* titles have been kept in their original form. No attempt to modernize or improve the game was made with these titles in order to maintain the sense of nostalgia.

Some of the CD's may contain a PATCH directory. To determine if your program has a PATCH program, go to your CD-ROM prompt in DOS (i.e., your D:\> assuming your CD-ROM drive is labeled D) and type:

DIR <ENTER>

If the directory listing has a [PATCH] option, then you will need to add these patch files into the game directory after installing the game to your computer. For example, if you installed King's Quest V, and you noticed a directory called [PATCH], you would use the following command to copy the patches into the KQ5 directory:

COPY D:\PATCH*. *C:\SIERRA\KQ5<<ENTER>>

NOTE - the above example assumes that your CD-ROM is

labeled as your D drive, and you installed the game to your C hard drive into the directory \SIERRA\KQ5. Please substitute the correct path information in the example above.

Windows '95 users may also have to play the game under DOS, since many of the titles are true DOS games and were created before Windows '95 was released. When using Windows '95, you can re-start your computer in a true DOS mode by clicking on the START button, selecting the SHUT DOWN option, and selecting the "Restart the computer in MS-DOS mode?" item.

Finally, many of these products were released before many of the high quality sound cards such as the AWE 32, Gravis Ultrasound and Ensoniq SoundScape have been released. When selecting an audio/music option for the game, your best bet is to select the AD-LIB option.

On behalf of Sierra On-Line, thank you for purchasing this *SierraOriginals* product. We appreciate the opportunity to share our history with you and your entire family!

Respectfully,

Gary Brown

SMART START

In an effort to make game installation as convenient as possible, we've created Smart Start. Smart Start will automatically determine the graphics, sound, input devices and the speed capability of your computer system to optimize gameplay. Smart Start will also take you step-by-step through the process of installing your setup preferences on a hard drive. Don't be intimidated, just jump in and try!

1. After booting your computer, insert the Stellar 7 CD-ROM disk into your CD-ROM drive.
2. Type the letter of your CD-ROM drive followed by a colon (for example: D:).
3. Type INSTALL and then press [ENTER].
4. Select Install Stellar 7.
5. Follow the on screen instructions.

CHANGING PREFERENCES

Smart Start will do its best in deciding what type of computer equipment you have, but sometimes it may make a mistake or you may wish to try other graphics modes, sound configurations, etc. To modify Smart Start preferences, follow these steps:

1. Insert the Stellar 7 CD-ROM disk in your CD-ROM drive.
2. Type the letter of your CD-ROM drive followed by a colon (for example: D:).
3. Type INSTALL and then press [ENTER].
4. Select Change Graphics, Change Music and Audio or Change Sound Effects.
5. Follow the on screen instructions.

To run the game, type Stellar 7 from the Dynamix hard disk directory.
