WELCOME!

Thank you for buying **Spelling Jungle**. **Spelling Jungle** is a multimedia program that uses proven learning methods to improve your child's spelling skills. Indeed, spelling commonly misspelled (tricky) words correctly will become automatic to your child. Your child will learn to spell correctly words that comprise the majority of spelling errors made by students ages 7 to 10.

Spelling Jungle features an animated, personal coach named Yobi. Using phonics rules, Yobi gives your child clues and hints on proper spelling. Using spelling mnemonics, Yobi also provides clever and humorous tricks to help remember how to spell these words long after he or she has completed the game. In addition to learning the tricky words, Yobi also helps your child practice spelling hundreds of other words.

SPELLING JUNGLE OVERVIEW

In the heart of Africa, the Mighty Spelling River has flooded its banks, threatening the tribes, plants, and animals. The local people have turned to an old and magical wizard named Yobi for help. Yobi is known for his wisdom and sense of humor.

Yobi needs your help. He must paddle upstream 100 miles on his raft to discover the cause of the flood. However, he is too old to undertake such a physically demanding quest. As Wali, his young protégé, you must make the trek for him.

Your mission is to step on lettered stones to spell a tricky spelling word. Along the way, you will meet animals, mud slides, fire gods, hot coals, boulders, and old all-terrain vehicles.

If you run into a tricky spelling word that's too hard for you to spell, don't worry. Yobi will be at your side to make your spelling life easier by giving you a MagicSpell, a special spelling memory trick (called a mnemonic). You can use Yobi's MagicSpells to help you remember how to spell tricky spelling words long after your journey is over.

After correctly spelling the tricky spelling word, you will be challenged to a Spell Down along the river. For each correctly spelled word, you move upstream. For each incorrectly spelled word, you stand still. After you correctly spell several words, you will face another tricky spelling word. You continue your journey, meeting one tricky spelling word followed by a variety of Spell Down words until you reach the end of the river.

At the end of the river...well, it's up to you to find out why the river is flooding.

THE MAP

After loading **Spelling Jungle**, the first screen of the game is a map. Yobi uses this map to keep track of your progress. As you play the game, a red line appears showing the course you have traveled upstream on the Mighty Spelling River. Each time you correctly spell a tricky spelling word, Yobi will place a red dot on the map. At the beginning of a game, Yobi will ask you to choose a stone. You may select one of several stones:

NEW GAME

To start a
new game

PLAY

To play a
game

RESTORE GAME

To restart an
existing game

QUIT

To leave the
saved game

NEW GAME STONE

When you first start **Spelling Jungle**, choose **New**. A dialog box will appear for you to type in your name (enter up to five letters) and press Enter.

RESTORE GAME STONE

To continue your journey along the Mighty Spelling River, click on the **Restore Game** stone. A dialog box will appear. Click on one of the people to rotate the list of saved games up or down. Click on **Restore** to resume.

On a **Restore Game**, the Explorers' Board shows a map with a red line and red dots. Yobi uses this map to keep track of your progress. The red line shows the journey you have traveled up the Mighty Spelling River. Each time you correctly spell a tricky spelling word, Yobi will place a red dot on the map. Click on one of the red dots to display the words you completed successfully.

PLAY STONE

When you return to the Explorers' Board after selecting **New** or **Restore Game**, you'll see a **Play** stone. Use **Play** to start a new journey or to continue your journey from a restored game.

To replay an earlier tricky spelling word, drag the red dot along the red line until you stop on the word you want to replay, then click on the **Play** stone.

NOTE: If you click on the **Play** stone without selecting a tricky spelling word, you will automatically restart your game where you left off.

QUIT STONE

To leave the game, click on **Quit**. Yobi will record the distance you traveled and say good-bye.

THE OTHER EXPLORERS

Yobi keeps track of the top ten explorers (game players). To see how many miles you and others have traveled, just look at the number to the right of your name. The total distance to travel is 100 miles.

THE JOURNEY UP THE MIGHTY SPELLING RIVER

OVERVIEW

Yobi provides you with two styles of spelling challenges along the Mighty Spelling River: The Spelling Puzzles and the Spell Down. While solving a Spelling Puzzle you will learn to correctly spell tricky spelling words and during the Spell Down you will have the chance to practice your general spelling skills.

You always begin **Spelling Jungle** with a Spelling Puzzle. As the map screen fades, a new tricky spelling word puzzle appears. At first glance, all of the puzzles appear to be the same; however, each tricky spelling word requires that you solve a different puzzle.

After you have successfully navigated the Spelling Puzzle, you are automatically taken to the Mighty River Spell Down. During the Spell Down you have the opportunity to practice spelling many different words.

YOBİ PRONOUNCES THE WORD ALOUD

As the game begins, Yobi tells you the word you must spell. He will give you a verbal clue to its correct spelling. You can also use a MagicSpell (mnemonic) at the bottom of the screen to help you correctly spell the word and recall how to spell it after the game is over.

MOVING WALI

You can move Wali three different ways: with your arrow keys, your mouse, or your joystick.

Arrow Keys

To make Wali step up, down, left, or right, press the up, down, left, or right arrow keys on your keyboard. (If you hold an arrow key down without lifting up, Wali will continue to move in the direction of the arrow.)

Mouse

To move Wali one step, click your mouse in the direction you want him to go. For each click, Wali will take another step. To move Wali several steps, hold down your mouse button.

Joystick

To move Wali, press your joystick handle in the direction you want him to walk.

Customized Arrow Keys

You can easily create your own directional keys by replacing the arrow keys with characters from the keyboard. From the Map screen, click in the middle of the compass. Yobi will give you a brief explanation. To change the north arrow to a keyboard letter, simply click on the N and then press the keyboard character you want to use for the up directional arrow. Click on S and press the keyboard character you want to use for the down directional arrow. Click on the W and press the keyboard character you want to use for the left directional arrow. Finally, click on E and press the keyboard character you want to use for the right directional arrow.

HINT: When moving Wali around the screen, watch the placement of his feet rather than watching where his head is located.

COLLECTING LETTERED STONES AND OTHER OBJECTS

Collecting a lettered stone is easy. Just step on it. The letter of the stone appears above Yobi's head on the reader board.

Along the way you can gather other objects to use during the game. Just step on any object to collect it. These objects will also show above Yobi's head on the reader board. You can always ask Yobi for information by clicking on the object in **Pause** mode or refer to the list below.

HOW TO LAY DOWN A BRIDGE OR THROW AN APPLE

To lay down the *bridge*, simply press the space bar. Be certain the bridge is at the narrow area of the river. If you try to use the bridge on an area where the river is wide, it won't span across.

To throw an apple to feed an animal, press the space bar. Be careful not to be too close or it will go over the animal's head.

NOTE: Windows Users – The right mouse button can also be used to lay down a bridge or throw an apple.

THE OBSTACLES

You will face many obstacles while stepping on the lettered stones. If you need a clue about an obstacle, ask Yobi. There are many challenges you will have to overcome.

RHINOCEROS

The rhinoceros has a pointed snout. Don't get too close. The rhinoceros paces back and forth and does not turn. It is harmless to you unless you get too close to the snout. If you bribe a rhinoceros with an apple, it will turn toward you and you can push it to a new location.

ALLIGATOR

While swimming in the Mighty Spelling River, the alligator hugs the wall. Watch it closely, for it is always moving. If you get too close, it will come out of the water and charge you. However, you are safe if you stay away from the bank of the river. It will only go a short distance from the water. An alligator cannot be bribed with an apple.

LION

The lion grazes when you are not around. However, if you get too close, it will charge. The key to the lion's movements is that it doesn't like to go too far from home. Once you are no longer a threat to it, the lion's only goal is to get back to its starting position. A lion cannot be bribed with an apple.

TIGER

Like the lions, tigers graze when you are not around. Once you have captured a tiger's attention, it will align with you and mimic your every movement. If you turn left, the tiger will turn left. If you walk away from a tiger, it will follow. If you walk towards a tiger, it will walk towards you. If you get too close it will stay with you for the rest of the puzzle. You cannot bribe a tiger with an apple.

ELEPHANT

The elephants are always grazing. Usually, an elephant is standing where you want to go. An elephant can be bribed with an apple and then pushed out of the way. While the bribe is in effect, the elephant turns pink. As soon as the bribe has worn off, the elephant turns gray again and returns home to its starting position. Be careful that when it returns home, it has not blocked your way out of where you are located.

HIPPOPOTAMUS

A hippopotamus mainly bobs up and down in the water. When a hippopotamus is bobbed up, you can walk across its back to the other side of the water. While it is bobbed out of the water, you can also stand on the shore and throw an apple at it for a bribe. At this point, you can get on its back and ride it to another location along the river. Be quick! When the bribe wears off, you don't want to be left in the middle of the river.

GAZELLE

Gazelles are always moving at top speed around the field of play. A gazelle may be annoying but it presents no hazard to you. Running into it will cause you no harm. A gazelle can be bribed with an apple to stop it from running. Once bribed you can push it to a new location. However, after the bribe has worn off, the gazelle is back to running at top speed.

ZEBRA

A zebra is always grazing and will ignore you even if you are next to its nose. When bribed with an apple, it will follow you around the playing field until the bribe wears off. Wherever it is standing at the time the bribe wears off is where it will stay. This is a helpful hint for many of the puzzles.

FIRE TRICKSTER

The fire trickster will throw fire balls at you if you get too close. It is easily recognized by its bright yellow and orange colors. The fire trickster can throw fire balls in any direction. However, the range of the fire balls is relatively short. This is a helpful hint for many of the puzzles. The fire trickster can be neutralized with a fire potion (red bottle) or blocked by an animal, a boulder or an all-terrain vehicle.

WIND TRICKSTER

The wind trickster watches your every move and blows you across the playing field in either a north, south, east or west direction. A helpful hint is to use the wind's strength to move you where you want to go. The wind trickster can be neutralized with a wind potion (light blue bottle) or blocked by an animal, a stone wall, a boulder or an all-terrain vehicle.

DART TRICKSTER

The dart trickster also follows your every move and blows darts at you across the playing field... even over trees. A helpful hint is to time your movements to avoid the darts. The dart trickster can be neutralized with a dart potion (brown bottle) or blocked by an animal, a boulder or an all-terrain vehicle.

MUD

The mud is a very interesting element in which to maneuver. You will continue in the direction you are moving until an object stops your movement. Only after you have stopped can you change your direction. Here's a helpful hint... use your sliding movement in the mud to collect letters. Animals will not go into the mud. You can push a boulder into the mud and it will continue to travel in the direction that you pushed it until an object stops its momentum.

HOT COALS

You will easily recognize hot coals because they are bright yellow and orange. Though you can walk on hot coals, whatever you do – don't stop! No animals will go into hot coals.

DARK PITS

No animal will go into a dark pit... and neither should you. Everything disappears when it gets too close to the edge.

STONE WALL

Stone walls are helpful obstacles against tricksters. Nothing can be done with them.

WATER'S EDGE

You can't go any farther than the water's edge unless you get on the raft, walk across a hippo, ride a hippo or use a bridge.

GRASS

The light green grass is a protected area for you. No animal will come on the grass unless you push the animal onto it. The fact that this is a protected area for you is a helpful hint with many of the puzzles. However, you are NOT protected from tricksters on the grass.

LAND

The land is a very pale yellow color. You and all animals can walk across it.

TREES

The trees are very dark green in color. You and the animals cannot walk on the trees. They are considered an obstacle to your movement much like the stone wall is. Trees do not block any of the trickster antics.

BOULDER

Boulders are gray and round. They can be pushed. When pushed on land, they serve as an excellent barrier to tricksters and when pushed into the water, they serve well as a stepping stone to the other side of the river. Be careful! The boulder in the water will disappear after a very short time, so you must be quick.

ALL-TERRAIN VEHICLE

An all-terrain vehicle is also an excellent barrier to the tricksters. It, too, will float in the water and allow you to cross the river. When an all-terrain vehicle is pushed, it continues in that direction until something stops its progress. You can only push it from the front or the back... not from the side. Hint... don't park it on the hot coals.

LETTER TABLETS

All of the letters of the tricky spelling words are found on letter tablets scattered on the playing field. Be careful... there may be extra letters to throw you off course.

APPLE

A red apple is used to bribe animals. An apple will cause a changed behavior in the animal for approximately 10 seconds. After 10 seconds, the effects of the apple wear off. An animal can be bribed with more than one apple. For example, three apples will result in changed animal behavior for 30 seconds.

BRIDGE

The bridge is useful when crossing water. It will remain in place for as long as you are solving the Spelling Puzzle. However, if you restart the puzzle or quit the game, you will have to collect and place the bridge again. You cannot pick up the bridge once you have laid it down. The bridge has to have solid ground on both sides of the water to be placed correctly. It will be placed in the direction you are facing.

TIME STOP

The little red bottle represents the time stopping potion. When you walk over the time stop potion, everything ceases to move except you. Move quickly, because it wears off within approximately 10 seconds.

WALK OVER WATER

The little blue bottle represents the ability for you to walk over water. When you step on this blue bottle, you will be able to walk across the river without the aid of a hippo or bridge. Move quickly for it wears off within approximately 10 seconds.

FIRE BALL PROTECTION

When you step on this little orange bottle, you are protected from the Fire Trickster's balls of fire. Move quickly for it wears off within approximately 10 seconds.

DART PROTECTION

When you step on this little brown bottle, you are protected from the Dart Trickster's red darts. Move quickly for 10 seconds is not a lot of time.

WIND PROTECTION

When you step on this little blue bottle, you are protected from the Wind Trickster. Move quickly... time moves quickly, too.

TRINKET

These little trinkets appear in every tenth tricky spelling word puzzle. When you acquire one, it will appear in color on the Map. The trinkets are an added "bonus" for your playing pleasure. Collecting them is NOT required to complete your journey, but they are highly prized. No hints are ever given to help you collect them... you are on your own.

WALI

That's you playing as Wali.

RAFT

The raft delivers you to each tricky word Spelling Puzzle and takes you away to the Spell Down challenge. Here's a hint... getting back to the raft after you have spelled the tricky word correctly can also be a challenge. Leave yourself a way out.

ASKING YOBİ FOR HELP

To ask Yobi for help, click on the **Pause** sign at his feet. The game will stop. Yobi will then give you a clue about anything you click on. For example, if you pause the game and click on the all-terrain vehicle, Yobi will tell you "The jeep can be pushed." Click on **Play** to continue the game.

HOW TO SPELL A TRICKY SPELLING WORD

In the puzzle game, your goal is to step on all the lettered stones in the right order to correctly spell a tricky spelling word. The lettered stones will appear on the reader board above Yobi's head as they are collected.

STEPPING ON LETTERED STONES IN THE WRONG ORDER

If you step on lettered stones in the wrong order, you will incorrectly spell the tricky spelling word. The screen will fade to black. When the screen reappears, Yobi will ask you to spell the word again.

CORRECTLY SPELLING A TRICKY SPELLING WORD

When you step on each lettered stone in the right order, you will have correctly spelled a tricky spelling word. Congratulate yourself and watch Wali paddle up the Mighty Spelling River for your next challenge...the Spell Down.

YOBİ REPEATS A TRICKY SPELLING WORD

Each time you click on Yobi, he will repeat the tricky spelling word.

THE MIGHTY RIVER SPELL DOWN

When you have successfully spelled a tricky spelling word, you will face several spell-down words. The number of words you will have to spell increases the farther up the river you go. You can use your keyboard or mouse to spell them.

Keyboard	A - Z keys. Press these keys to spell the word.
	Backspace key. Press the Backspace key to back up one letter.
	ENTER key. Press the ENTER key when you're done spelling the word.
Mouse	A - Z stones. Click on each of these stones to spell the word.
	Delete stone. Click on the Delete stone to back up one letter.
	Enter stone. Click on the Enter stone when you're done spelling the word.

Remember, your goal is to move up the Mighty Spelling River. When you spell a word correctly, you move up the river. When you spell a word incorrectly, you stay in place. When you spell several words correctly, you will go to the next tricky word Spelling Puzzle.

YOBİ REPEATS THE WORD

Each time you click on Yobi, he will repeat the Spell Down word.

HINT: Are you unable to hear the word? Watch Yobi's lips move. It will make it easier for you to hear.

MILESTONE MAP DOTS

For a tricky spelling word to appear on the **Map**, you must complete both the Spelling Puzzle game and the Spell Down.

RESTARTING THE GAME

If you feel you have made a mistake while playing a tricky spelling word puzzle and wish to start again, click on the **Restart** lever on top of Yobi's hut. The screen will fade to black and the game will restart.

QUITTING THE GAME

To quit **Spelling Jungle**, click on the **Map** sign hanging above Yobi's head. Once you are at the **Map** screen, click on the **Quit** stone.

THE END OF THE JOURNEY

After you have spelled all of the tricky spelling words correctly, you will discover why the Mighty Spelling River is flooding. You will enjoy the ending!

HINT BOOK

The fun of **Spelling Jungle** is figuring out how to solve the puzzles. The most important thing however, is for you to remember how to spell the words. Therefore, we have provided you with hints for solving every puzzle. We encourage you to try it on your own, but if you get stuck, this is where to look for a solution.

No clues or answers are given to collecting trinkets. They are not needed to solve the puzzle but they are highly prized. If you collect a trinket it will appear in color on your Map.
