SCREEN ANTICS!™

JOHNNY CASTAWAY™

S.O.S!

STOP EVERYTHING!
ONLY WHEN YOU QUIT WORKING, DO I HAVE A CHANCE TO ESCAPE THIS FORSAKEN ISLAND. SO PLEASE, DO IT FOR ME — KILL SOME TIME TO SAVE AN OLD SALT!

SINCERELY,
JOHNNY CASTAWAY

SIERRA®

Installation

1. Enter Windows™ by typing **"WIN"** at the DOS prompt.
2. Insert the original *Johnny Castaway* disk in a floppy disk drive .
3. From the Windows™ Program Manager, select **Run** from the **File** pulldown menu.
4. Type the letter of the floppy disk drive containing the *Screen Antics* diskette followed by the command **":\SETUP"** then press **[Enter]** or click the **OK** button.
   Example: **A:\SETUP [Enter]**.
5. The Setup program will ask you to indicate the hard drive and subdirectory where you want to place *Screen Antics*.
6. After you have indicated the hard drive and subdirectory, click **OK.** The program will check for sufficient storage space. If space is available, the installation process will take from one to five minutes depending upon the speed of your computer and hard drive.
7. To choose *Screen Antics* as the active screen saver, double click on the Control Panel icon in the Main group, then double click on the Desktop icon. From the Desktop window, choose *Screen Antics* in the Screen Saver Name box, then use the up and down arrows in the Delay box to tell Windows™ how long to wait before activating *Screen Antics*. Click **OK** on the Desktop to implement these changes, then close the Control Panel window. *Johnny Castaway* will now appear on your screen anytime your computer is inactive for the length of time displayed in the Delay box.

Setup

Open the Desktop window as in step 7, then click on **Setup** to access the *Screen Antics* Setup window. From here, you can adjust the following options:

Start of the Day

Tells *Screen Antics* when to start Johnny's day. Johnny lives in a strange little world where daytime lasts for six real-world hours and night is two real-world hours long. If you use default settings, night will begin around 3:00 p.m. letting you know it is nearly time to go home!

Password

Select this option if you want *Screen Antics* to request a password before returning to the Windows™ desktop. To implement a password, click on the **Password** option in the Setup window, then enter and verify your new password. To remove a password, repeat the above steps but leave the new password blank.

Sounds

This option allows you to toggle sound on or off.

Load Background

You can enhance the screen saving aspects of *Screen Antics* by choosing not to load the background, although the constant variation of backgrounds, horizon line, and island location are sufficient to prevent screen burn-in.
