An Important Note Regarding Graphics and Having the Best Possible Experience

F.E.A.R. Extraction Point uses some of the most advanced rendering techniques available today for special effects and to achieve real-time performance for a great game playing experience. The game was largely developed and tested on NVIDIA® GeForce® FX 6 Series and 7 Series graphics cards, and the intended experience can be more fully realized on NVIDIA GeForce 7 Series graphics hardware. On a GeForce 6800 or better, you will be able to turn on all of the NVIDIA special effect features at higher resolutions in the game.

EAX® ADVANCED HD™ is used to model reverberation effects on the 3D sounds. This allows the game to accurately model different acoustic environments and take advantage of the hardware DSP on the Sound Blaster® Audigy® and Sound Blaster® X-Fi™ series of sound cards.

INSTALLING AND LAUNCHING THE GAME

To begin, insert Disc 1 into your CD-ROM drive. Within a few seconds, the setup application should start. If the setup application does not launch automatically within a reasonable amount of time, then double-click the My Computer icon on your Windows® desktop or in the Start menu, then on your CD-ROM drive icon, and then on the Setup.exe icon. When the first window appears, choose Next to continue or Cancel to exit the installer. Then, follow the instructions on each page as described below to complete the installation.

Note: Prior to installation, players will automatically be prompted to upgrade to **F.E.A.R.** Version 1.07.

If you purchased this game via download, simply double click on the file you just downloaded and follow the on-screen instructions.

Note: You will not need to have a disc in the CD-ROM drive to play.

LICENSE AGREEMENT

Please read the End User License Agreement (EULA) before installation begins. To agree with the license agreement and continue installation, scroll to read the entire agreement, then select "I accept the terms of the license agreement" and click on the Next button. If you do not accept the license agreement, click Cancel to exit the installer. If you are connected to a printer, you can print out the license agreement with the Print button.

CD KEY

Enter the validation code as it appears on your CD sleeve. When done, click Next.

SELECT PROGRAM FOLDER

This screen determines which Start menu folder will contain shortcuts to the game and other useful items. This defaults to Sierra/FEAR or the folder where the original **F.E.A.R.** game is stored. If desired, you can specify another directory by clicking on the program folder field and typing in a new name of your choice, or you can choose one of the existing folders from the list. When ready to continue, click Next.

DIRECTX®

You will now be prompted to install DirectX® 9.0c to your system. If you are not 100% sure that this is already installed on your system, please select Yes. The game cannot run without these files. If you select yes, then the DirectX® installer will appear after the game installer finishes copying files.

READY TO INSTALL THE PROGRAM

If you are ready for the installer to begin copying files, click Install. You may also choose to go Back to review your previous installation choices or to Cancel the installation of the game.

GAMESPY ARCADE

If you wish to install GameSpy Arcade, select Yes on this screen, or select No if you do not want to install it at this time. When ready to proceed, click Next. If you select yes, just follow the on-screen instructions to complete the GameSpy Arcade installation. If you change your mind at any time and wish to abort installation of GameSpy Arcade, click Cancel.

COMPLETING INSTALLATION

After installation, a confirmation screen will appear. Click Finish to exit the installer. Once installation has completed, you can launch the game at any time through the Windows® Start menu. To do this, click on the Start button and select All Programs. Select the Sierra folder and **F.E.A.R. Extraction Point**. Then click on the **F.E.A.R. Extraction Point** icon. If you encounter any problems while installing, launching or playing the game, please refer to the readme.txt file that's located on Disc 2 for troubleshooting tips and last-minute information.

THE MENU SYSTEM

Each time the application launches, a few splash screens and movie files will be shown. You can abort these by pressing the spacebar. At this point, you will be taken to the main menu. WELCOME TO F.E.A.R. EXTRACTION POINT

Paxton Fettel's uprising led the **F.E.A.R.** team to uncover the secret of Armacham's Origin Facility. In the darkness of that forgotten laboratory lay Alma, waiting, watching.

Harlan Wade was responsible for opening Armacham's vault. His intentions were unclear, and the consequences disastrous. In an attempt to contain the unleashed terror, the Origin Facility's reactors were overloaded and detonated.

You escaped the Origin Facility's explosion and were rescued by your teammates. The nightmare that began with Paxton Fettel's insurrection has ended.

But a new nightmare is about to begin.

YOUR ARSENAL

WEAPONS

Several new tools are available to help contain the threat. These weapons, under development by Armacham for use with its cloned soldiers, represent the cutting edge of military hardware.

TG-2A Minigun

Advances in plastics and lightweight polymers have paved the way for this highly portable weapons system. Weighing only 50% as much as classic minigun designs, the TG-2A Minigun provides unmatched firepower against human and lightly armored targets over close and medium ranges.

Type-12 Laser Carbine

Unbeknownst to the general public, Armacham's scientists have advanced the production of optical equipment and battery supplies into the next generation. The Type-12 Laser Carbine capitalizes on this technology, capable of sustaining a coherent beam of cutting light for several seconds.

AP-5 Deployable Turret

For use in defensive battles, the AP-5 Deployable Turret provides support by automatically acquiring and engaging enemy targets. Simply throw the AP-5 Deployable Turret at a wall (or ceiling), and it will lock into place and deploy.

SUPPLIES

Replica forces have begun moving large quantities of stolen ATC supplies through the city. **F.E.A.R.** HQ has authorized the confiscation and usage of any such supplies encountered during normal operations. Useful ATC supplies are transported in specially marked containers that will require some physical aggression (or bullets) to open.

FORCED ENTRY

Desperate situations call for desperate measures. **F.E.A.R.** HQ has authorized the use of physical aggression against public and private property where the field agent deems it appropriate.

Press Melee when near a door to quickly knock the door open.

Doors may also be opened from a distance with explosives (grenades, rockets, etc.).

MULTIPLAYER

To play **F.E.A.R.** Multiplayer against other live players, you must be connected to other computers via a LAN or a broadband (DSL, Cable, T1 or T3) connection to the Internet.

STARTING **F.E.A.R. COMBAT**

Selecting Multiplayer from the Extraction Point menu will launch **F.E.A.R. Combat**. **F.E.A.R. Combat** is the free multiplayer client that allows everyone to play **F.E.A.R.** Multiplayer. In order to return to Extraction Point, you must exit **F.E.A.R. Combat** normally and restart Extraction Point.

To play **F.E.A.R. Combat** with your friends, have them download **F.E.A.R. Combat** from the internet. **F.E.A.R. Combat** is entirely free, and download links are available at:

<http://www.joinfear.com>

ADDITIONAL GAME MODES

F.E.A.R. Multiplayer has seen a number of additional game modes added since version 1.0. Below is a small sampling of new game modes.

Capture All

In Capture All mode, two teams compete for five Control Points. Team points are earned for neutralizing or capturing a Control Point as well as killing enemy players. To win, your team must capture all five Control Points, reach the score limit before the enemy team does or have the highest score when the time limit expires. This game mode uses CTF maps.

Control

In Control mode, two teams compete for three Control Points. Teams earn points for each Control Point they hold. To win, your team must reach the score limit before the enemy team or have the highest score when the time limit expires. This game mode uses Deathmatch maps.

USER VOTING

User voting is now enabled. You can vote to kick a player in the game or a player on your team or to ban a player for however long the server-op has set for bans. The vote menu is accessible by hitting the <Esc> key. Once a vote is called, vote Yes by pressing the F1 key or No by pressing the F2 key.

 - (iv) host or provide matchmaking services for the Program or emulate or redirect the communication protocols used by Sierra in the network feature of the Program, through protocol emulation, tunneling, modifying or adding components to the Program, use of a utility program or any other techniques now known or hereafter developed, for any purpose, including, but not limited to, network play over the Internet, network play utilizing commercial or non-commercial gaming networks, or as part of content aggregation networks, without the prior written consent of Sierra; and
 - (v) create or maintain, under any circumstance, more than one simultaneous connection to any hosting service utilized for on-line play. All such connections, whether created by the Program or by other tools and utilities, may only be made through methods and means expressly approved by Sierra. Under no circumstances may you connect, or create tools that allow you to connect, to the hosting service's private binary interface or interfaces other than those explicitly provided by Sierra for public use.

However, nothing contained herein shall be construed so as to place an obligation upon Sierra to provide the servers and software technology necessary to utilize the "on-line" component beyond the time that the Program is Out of Publication. The term "Out of Publication" as used herein shall mean that the Program is no longer being manufactured by Sierra.
 9. **Limited Warranty.** Sierra expressly disclaims any warranty for the Program, Editor and Manual(s). The Program, Editor and Manual(s) are provided "as is" without warranty of any kind, either express or implied, including, without limitation, the implied warranties of merchantability, fitness for a particular purpose, or noninfringement. Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations may not apply.

You also acknowledge and agree that this License Agreement is the complete and exclusive statement of the agreement between Sierra and yourself and that the License Agreement supersedes any prior or contemporaneous agreement, either oral or written, and any other communications between you and Sierra.
