Installation

In order to play *FIELD AND STREAM, Trophy Hunting 4* you must first install the program on your computer's hard drive.

AutoPlay (The Quick and Easy Way to Install Your Game)

The *Trophy Hunting 4* CD contains an Autoplay program that automatically guides you through the installation process.

1. Put the CD into your computer's CD ROM drive.
2. Once the Autoplay screen appears, click on the **Install** button.
3. Follow the on-screen installation instructions. Once you have successfully installed the game, you're ready to play!

What to do if AutoPlay Doesn't Work!

If the AutoPlay program doesn't automatically bring up the AutoPlay installation screen, you need to start the program yourself.

1. Click on the My Computer icon on your computer's desktop.
2. Right-click on the CD ROM drive showing the *FIELD AND STREAM, Trophy Hunting 4* icon.
3. Click the Autoplay option.
4. After the Autoplay screen appears, click on the **Install** button to begin.

Installing the Game

You are given two options when it comes to deciding how much of the game to install; Minimum and Normal. The Normal installation option takes up more space on your hard drive but makes for faster game play.

Begin Playing

Now that you've installed the game, there are several ways to actually begin playing:

1. The Autoplay feature automatically starts the game each time you insert the game CD into your CD ROM drive.
2. You may also begin the game by clicking on your desktop **Start** button then selecting **Programs>Sierra> FIELD AND STREAM, Trophy Hunting 4**.

Hunter Sign in

The Hunter Sign In screen allows you to enter a new player, or choose an existing player. This player name is used to keep track of your progress in the game.

The Main Menu

The Main Menu screen displays your major gaming options.

Hunt Now

Drop into a random location with some gear and a rifle and start hunting. Select this hunt when you're just looking to get in the game and hunt right away.

Single Player

Choose this option if you will be hunting alone. Single player will allow you to choose from a hunting trip, a hunting challenge, or the shooting range. (See single player hunts section)

Online Hunt

Join any online game and start hunting. Find that big trophy for a listing on the *FIELD AND STREAM, Trophy Hunting 4* online high scores list.

Trophy Room

View the trophies from successful single player hunts.

More Info

Click here to find more information about *FIELD AND STREAM, Trophy Hunting 4*. Look here for hunting tips, and the online manual.

Options

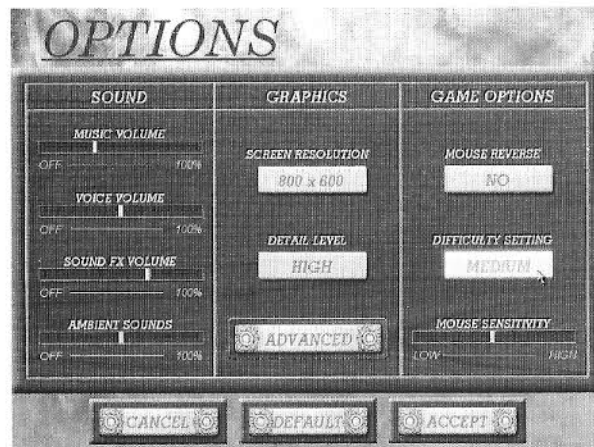

Click here to change certain game options. See the Game Options section for more information.

Exit

Click on the Exit button if you wish to exit the game at this time. You are immediately returned to your computer's desktop.

Options

Many aspects of *Trophy Hunting 4* can be customized. The Options screen allows you to make changes to sound, graphics, and game options. When you have finished making your selections, click Accept to record your changes. Click the **Default** button if you are not happy with changes you have made and wish to revert back to "original" game settings. Choose **Cancel** to return to the previous screen without saving any changes.

Sound

Set the volume on the various sound components using the slider bars provided. Moving the slider bar all the way to the left turns off the sound.

Graphics

Brightness

Move the slider left to bring the brightness level down, or right to increase the brightness.

Screen Resolution

The game will find and try to run the game in the best screen resolution for your system. If you wish to change the screen resolution, click the button to roll through all available screen resolutions. Note that changing the screen resolution can make a noticeable difference in the speed of the game.

Detail Level

The optimum detail level will automatically be chosen by the game. To make a change, click the **Detail Level** button to roll through the available options. Note that changing the detail level can have a noticeable effect on the speed of the game.

Advanced

The advanced settings allow you to personalize how the game looks on your computer. When the game loads, it will preset the settings to be optimal for your system. Note that making changes to the advanced settings can have a noticeable effect on the speed of the game.

Game Options

Difficulty Setting

Click the Difficulty Setting button to choose "easy," "medium," or "hard" difficulty levels. Note that some game features are ONLY available in the "easy" setting.

Mouse Sensitivity

Use this to slow the responsiveness of the mouse while playing the simulation. Note this will NOT have any effect on your mouse settings outside the game.

Mouse Reverse

Change the Mouse Reverse button to "YES" to reverse the look-up, and look-down control on the mouse.
